The *École Française de Zagreb* is happy to invite you to the fun **French Summer Program 2018**.

Starting on **June 26, 2018**, the program is organized in French with fun activities such as water games, sport, craft, cooking, theater... A new theme will be discovered each week (circus, animals, transportation, food...) so the children can learn vocabulary and express themselves with confidence, in French.

Summer Program Philosophy

Our program enhances the practice of French for children from 3 to 12 wishing to learn and practice the language, through fun and diverse activities such as songs, craft, cooking, sport, water games, ...in a social and cooperative atmosphere.

The program is an opportunity for non-EFZ students to discover another language with confidence.

All our instructors are francophone but also speak croatian. Their mission is to plan activities around a constant practice of the language to maximize the children's exposure to French.
